

# Disney Parks Disability Access Service Card

Disney Parks have an unwavering commitment to providing a welcoming and inclusive environment and accessible experiences for guests.

Disney Parks is modifying the current Guest Assistance Card program, which provides access to attractions for guests with disabilities, so it can continue to serve the guests who truly need it. The new program is designed to provide the special experience guests have come to expect from Disney. It will also help control abuse that was, unfortunately, widespread and growing at an alarming rate.

The new Disability Access Service (DAS) Card will allow Guests with disabilities at Walt Disney World Resort and Disneyland Resort to receive a return time for attractions based on the current wait time. Guest Relations at the front of each park will continue to assist Guests and provide assistance that is responsive to their unique circumstances.
